

Case Study:
Hope School, Liverpool
Report From:
Mr I Green, Assistant Headteacher

"I would highly recommend this product to any school that wishes to streamline their trips procedures."

Challenges

Cost and time in producing documentation and permission slips.

Parents and carers phoning office about trip arrangements.

Lack of tracking led to some pupils being unable to attend a trip.

Solution

Send trip information direct to parents via App and website.

Staff manage trips directly on screen, no chasing up paperwork.

Instantly see which parents have given consent and send reminders with a click of a button.

Hope School provides for boys with emotional, social and behavioural difficulties. Leadership, teaching, behaviour and achievement of pupils have all been graded as Outstanding by Ofsted. The school is highly effective in delivering outcomes that provide exceptionally well for all its pupils' needs.

Paperwork and Communication Challenges

"The challenges that we faced were the same as most schools, the office would be swamped with calls from parents and carers as well as the preparation and distribution of letters for the trips. Not to mention time consuming nature of communicating with parents to obtain permissions."

Empowering Trip Leaders

"eeZeeTrip puts the power back into the hands of the trip leader who is able to fully manage, monitor and amend all aspects of the trips they are arranging."

Instant Management Control

"Staff have reacted in a very positive way. They enjoy the instant control they now have over arranging and managing trips. The Head Count functions prepares a list of all who are on the trip, including their emergency contact numbers."

Simple to Use

"The software itself is very simple to use and is very user friendly. It is set out in way that is simple to understand and can be introduced very easily."

Parents Embrace Change

"Parents have also embraced the change; it is so accessible through the App as well as online. The parents are notified instantly when a trip is created with full details of dates and times, equipment requirements. Where necessary, some parents and carers can still receive letters which are automatically produced by eeZeeTrip"

Effective, Responsive Support

"Any problems that I experienced during the initial set up were dealt within in a friendly manner and solutions were effective and efficient along with this, any ideas I suggested were taken on board."

The simple solution for notifications and payments.
